Updated 28/4/26

Vehicle weight checked on weighbridge - any over-weight is charged at a pro-rata per ton rate.
Natural clean fill must be from non-contaminated sites for Natural Clean Fill rates to apply.
Management has final say on product definition.

Important:: Auckland Quarry cannot accept: general refuse, tyres, plastic, glass, materials with hydrocarbons, liquid waste, combustible, putrescible, degradable or leachable components, hazardous waste or materials associated with hazardous waste treatment/stabilisation/disposal practices, medical or veterinary waste, asbestos or radioactive substances or contaminants harmful to human or animal health.

- Please complete our waste declaration form before tipping your material.
- Brick loads will be charged as unsuitable concrete
- Concrete loads containing any dirt, timber or plastic will be charged as unsuitable
